

David Wirt*Global Head of Managed Services**Tata Communications*

David Wirt is Global Head of Managed Services at Tata Communications, part of the \$62.5 billion Tata Group. Based in Singapore, Mr Wirt is responsible for the commercial business for the Managed Services division, data center engineering and operations, as well as Tata Communications' subsidiary, Tata Communications Transformation Services (TCTS).

Mr Wirt has more than 23 years of experience in the Systems Integration and Managed Services domains, and brings a strong background in business process consulting, outsourcing, application and infrastructure management across industries.

Prior to joining Tata Communications in late 2009, Mr Wirt was Vice President & Managing Director of Greater China & Korea with EDS Asia, where he oversaw P&L responsibility for the business in the regions, as well as service delivery and growth programs for the company's core lines of business. Before that, he was Chief Operating Officer and Vice President of Global Services of Asia, where he oversaw 3,000 employees and was responsible for all aspects of service delivery and quality assurance for EDS' operations and services across Asia. Mr Wirt also served as Business Development Director, Applications & Infrastructure Manager and Systems Engineering Manager at EDS USA's hi-tech manufacturing business.

Additionally, Mr Wirt assumed the role of an independent consultant providing business and IT Strategy and M&A consulting, and has worked with capital management firms on investment strategies in China, as well as one of the premier software parks in China, helping to develop its positioning and development. He was also a former board member of China Risk Finance LLC, a privately held Delaware company focused on credit risk management consulting and services; and Japan Systems, a JASDAQ listed company focused on systems integration.

Mr Wirt holds a Bachelor of Science degree in business administration/ accounting from the University of South Dakota.
